DETAILED ACTION

1. Claims 1,7,13,19,24,26 have been amended [7/26/2005].
2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/5/2005 has been entered and a non-final Office mailed on 04/26/2005
3. Claims 1-19,23-24,26 have been amended [4/5/2005].
4. Examiner acknowledges applicant's amendment filed on 10/1/2004.
5. Claims 1-26 have been amended [10/1/2004].
6. In view of the applicant submitted "terminal disclaimer", rejection under obviousness-type double patenting as set forth in the previous office action is hereby withdrawn.

Drawings

7. The Drawings filed on 6/3/2002 are acceptable for examination purpose.

Information Disclosure Statement

8. The information disclosure statement filed on 1/26/2004, paper no. # 4 is in compliance with the provisions of 37 CFR 1.97, and has been considered and a copy was enclosed with previous Office Action.

Claim Objections

9. Claim 26 is objected to because of the following informalities: At page 10, line 17 “invalid disk address, to the filesystem the inode or data.....” should be file system ..
- Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

10. Claim 19 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 19 is directed to A system for providing a file system snapshot, comprising:

“an initial snapshot dataset for a source file containing data in a file system,
wherein the snapshot dataset is substantially empty;

***“means for accepting a command to modify metadata in a second inode
within the source file”***

“a first inode in the snapshot dataset, the first inode comprising metadata.....
is a ***“functional language*** in a system claim. It is not clear whether all or part of the
claim is “A system for providing a file system snapshot”

Appropriate correction is required in response to this office action.

Art Unit: 2166

Claim, 19, would be allowable if rewritten or amended to overcome the rejections(s) under **35 USC § 112** second paragraph, as set forth in this Office action.

REMARKS

Applicant's arguments filed on 7/26/2005 with respect to claims 1-26 have been fully considered and are moot in light of the new grounds of rejection, necessitated by amendment. However, no prior art rejections are applied and claims 1,7,13,19,24,26 should become patentable upon submission of an appropriate amendment to clarify the above issues.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
